

Bob Witham, WD2U - Passing

We regret to inform you that our good friend Bob Witham, WD2U, passed away this past Tuesday evening, on August 8, 2017 at his home in Spring Lake NJ.

Bob was a long time member of the Ocean Monmouth Amateur Radio Club, OMARC, which currently meets at the Spring Lake Heights Volunteer Fire Company No. 1. Bob was a very active member and an "Elmer" to many people. He held the position of club Treasurer for many years and participated in every activity. He was instrumental in paving the way for OMARC to move to its current home meeting location in Spring Lake Heights. Bob was a past fire chief in Spring Lake NJ and an active member in the Spring lake Heights fire company. Some of Bob's recent interests with OMARC were with the satellite interest group, the Summerfest day camp for kids with cancer and the semimonthly club radio nights. He was one of those "always there" members. Bob is well known in Wall Township, at Infoage, for freely giving his time to provide lawn maintenance at the Diana site on Marconi Road. Bob spent hours every week, free of charge, riding the lawnmower and making sure that the two acre site was always well groomed. Bob always helped others, assisted at every activity, always had a smile on his face and was a key member of OMARC. We will miss him!

Joe Kruszewski

KC2SVS

OMARC Secretary
